Parmar Engineers

OIL & GAS | CHEMICAL | PHARMACEUTICAL

ABOUT US

Parmar Engineers founded in 2019 with the vision to provide best class quality mass transfer products to oil & Gas and chemical industry, our founder Mr. Ketan Parmar is the young dynamic engineer having +5 years of experience in chemical industry. He founded parmar engineers at the age of 22 and delivering continue success to clients. Later on, in 2022 with the strong customers demand Parmar Engineers started providing engineering service to Oil & Gas & Pharma, chemical industry. Our USP is best product and services to our customer with optimistic cost. We provide best turn around and quality services. We are the team of very enthusiastic people having good experience in their respective field. We all are committed to deliver success to our customer in their projects.

We are a team of
passionate
engineers and
designers.

VISION

To become a preferred engineering solution provider in oil & Gas, Chemical & Pharmaceutical Industry.

MISSION

To be faster, more flexible and to add more value for our clients.

VALUES

We conduct business with uncompromising integrity. We are committed to innovation and continuous improvement. We share our common goals through teamwork

Services

Process Engineering
